AIM KIDZ 1 Behavior Management Policy

The staff of AIM Kidz will go over the rules of the center with each child on their first day of attendance so that each child will know what is expected of them while in our care. This ensures their safety and well being, as well as, the of others. It is our aim that each child is happy, safe, and has a wonderful time while they are with us. We continually review the policies of accepted behavior as well as non accepted behavior.

While we expect small issues with behavior and address those as they occur, we want to communicate clearly our policy concerning behavior issues that escalate.

5. Being bullied by another child.
6. Being deprived of food or beverages.

EVACUATION PLAN

Parents will be first notified with the REMIND APP and then they will be sent a Text message. The back up plan will include all students being emailed and called.

In case of an emergency and AIM KIDZ I must be evacuated, the following sites are available for us:

Evacuation Site #1: Layne Industries (744-4899)
15112 Daigle Road (across the side street from us)
Prairieville, LA 70769

This location is directly across the street from us. Teachers will evacuate the children in case of an emergency. Office staff will assist in evacuation and will bring emergency card file box so that each contact person can be promptly notified of the evacuation. Mode of transportation will be walking as it is directly behind the building. If we feel it necessary, we can and will transport the children in the school vans.

Evacuation Site #2: Prairieville Middle School (621-2340)
16200 Hwy 930
Prairieville, LA 70769

This location is approximately 1 mile from the facility. Teachers will evacuate the children. Office staff will assist in evacuation and will bring emergency card file box. We will contact each child's contact person* to notify them of the situation. Mode of transportation will be school vans and staff vehicles if necessary.

Tornado Plan

When weather conditions are conducive to tornadoes, a radio is located at the center and will be monitored by the director. When a tornado warning is issued for our areas, the tornado plan will be activated. The tornado plan will be activated by verbal commands from the office staff on their walkie talkies with verbal confirmation from each staff member from their area confirming the fact that a tornado warning is in effect. Teachers will move their children into AIM into their hallways or other safe areas in the gym such as the in-ground pit. Students will be asked to sit on their knees with their head toward the wall and with their hands covering their heads.

FIRE PLAN

The fire plan is activated by an alarm system (manual or automatic). Once activated, students and teachers will exit the building using the pre-planned evacuation routes which are posted in each of the areas by a large EXIT sign. Teachers will evacuate the building with their roll books. The director will make sure each area is empty and all doors are closed. She will also bring the emergency card file box, which includes emergency names and phone numbers for all students. Preschool age children, kindergarten and 1st graders will be aided in the evacuation by the staff. The Director will also evacuate with the emergency file card box. Teachers, students and staff will meet at the designated location. Roll call will be taken. If needed, parents will be contacted by phone, by staff's cellular phones or we can use the phone across the street on Daigle (744-4899). Regular and substitute staff will be instructed to study the evacuation routes of each area they work.

BUILDING EVACUATION PLAN

The building evaluation plan is activated by the fire alarm or by verbal command from the office staff from area to area OR by the use of walkie talkies with verbal confirmation from each staff member that they have received the command. Teachers, students, and staff will proceed as quickly as possible to the parking lot area located to the side of the building. If evacuation is required for an extended period of time, children will be transported by staff in AIM Vans, and if necessary, staff vehicles, to Prairieville Middle School (621-2340) 16200 Hwy 930 in Prairieville.

CHEMICAL EMERGENCY PLAN

Should our area be affected by a chemical emergency, the teachers, students and staff will 'shelter in place' unless otherwise notified by a public safety agency.

PREPARATION

In order to facilitate the activation of this emergency plan, a copy of all emergency phone numbers will be kept in a secure location at AIM Athletics. Such a file could be retrieved in the event the school's file box is forgotten or destroyed during the process of evacuating the building. A radio will be used in the office so that the office staff can listen for severe weather warnings issued by the National Weather Service. Bottled water will be purchased and kept on site because a loss of power will result in the loss of water at our facility.
